One Day Surgery Center-Babulnath Hospital

From the Editors Desk:

Finally! The renovation work at the Centre is now over. We had an official opening on the 27th March. Amongst the hundreds of visitors, the most prominent was Dr. L. H. Hiranandani, who despite of ill health insisted that "You cannot stop me from anything connected with Day Care Surgery, and yours is the first such center, I will come" and he did!

On behalf of the doctors and the staff of One Day Surgery Center - Babulnath Hospital, I once again invite you to come and visit the Center, anytime

convenient to you.

This is a major step for us. In the time of recession and global go-slow, setting up a new center and investing in the renovation and equipment, makes one wonder regarding our business sense. But, healthcare was never meant to be a business. Yes, it is a profession and a means to earn a lively hood for many of us. Logically, the healthcare business should be recession-proof, but, it does not seem to be so.

In this issue, I have included pictures of the center and the opening days pictures. I sincerely hope it will be of some interest to you. Amongst the many doctors who visited and were part of the inauguration team, were Dr. LHH, Dr. K. R. Shetty, Dr. Vijay Punjabi, Dr. P. L. Tiwari, Dr. A. L. Kriplani, Dr. M. M. Begani, Dr. M. G. Nariani, to just name a few. Many senior family physicians took time out to visit and bless us.

"Old wine in a new bottle", is a well know statement and easier to do, here, we have "New wine in an old Bottle"! Babulnath Hospital or Dr. N. K. Shah Nursing home has been in existence since the past almost 50 years and is well know to most of us. Now, with the new generation, a new concept and a new look, accompanies a desire to do something new.

As you will see, we have created facilities for all class of patient. The charges are reasonable with ambience boosting of natural light and air.

A team of doctors have been identified, plus, as an open nursing home, everyone is welcome. Of course, preference is for surgical patients as this is a surgical center!

All those who could not make it for the inauguration, do drop in any time and have a look around.
