It promises to be blend of Local, National and International guests and faculty. You have received the first intimation & brochure will follow shortly.

The Association was formed in 2003, Constitution was drafted for the working of the Association. Now, regular amendments have been made during the AGM, minutes of those have been sent periodically to you. Elections are due, rules have been framed and winds of change are proposed, implemented and executed. Elections do not mean rejection of an individual, but, in a true democratic spirit, it allows you to express yourself. The progress of the Association should be foremost in our minds. Whoever contests, gets elected or nominated, let us all continue to be as supportive for this is our organization, collectively.

There is more to come, we need to push for recognition of a Day Surgery Centre as a category for registration with the corporations. Working with NGO's or hospitals in setting up Protocols, standards and parameters for Day Surgery, for the betterment of our patient population.

There is much more to write. But, I will end with an appeal to all, please send in your suggestions. Come forward and make this Association the largest family of Day Surgery providers.

Please find among the papers, Scientific Program, brochures and details will follow. Agenda for the next AGM. Nomination form and Rules for Election / Nomination. Election officer is waiting.
